How Does Fast CAT Work?

1. Fast CAT is a timed straight race of 100 yards.
2. Dogs run singularly.
3. The dog's time to complete the 100 yd dash is converted into mph:

$$\text{Formula: } 204.545 / \text{RUN TIME} = \text{MPH}$$

4. Based on the dog's wither height, a handicap is applied and points are earned:
 - 18" or greater = Handicap is 1.0
 - 12" up to less than 18" = Handicap is 1.5
 - Below 12" = Handicap is 2.0

MPH x HANDICAP = POINTS

Titles

Titles are earned at specific point levels and the highest suffix may appear after the dog's name:

- BCAT = 150 points
 - DCAT = 500 points
 - FCAT = 1,000 points
 - FCAT# = Each additional 500 points
5. Timing Devices: The time to complete the 100-yard dash is recorded to the nearest 1/100th of a second. The club may use stopwatches or break-the-beam equipment to obtain the time. If stopwatches are used, there shall be two timers positioned at the finish line. An individual at the start line shall signal with an arm drop the moment the nose of the dog crosses the start line. The timers shall start their stopwatches at the bottom of the arm drop. The timers shall stop their watches when the nose of the dog crosses the finish line. The times from the two stopwatches shall be averaged to determine the recorded time.
 6. Area of the course will be fenced-in recovery area of 50 yards. To learn more about AKC's Fast CAT please visit AKC Fast CAT webpage: <https://www.akc.org/sports/coursing/fast-cat/>
 7. Dogs are not to be enticed through the course with anything other than the lure during its official run. This means you cannot run with your dog (on or off the track). You cannot use toys/treats to get them to come to you as they are running the track. You CAN use your voice and/or hands to encourage them.
